

Growth Opportunity for Intern Architect or recently licensed Architect

This is a great opportunity to join an established – and expanding – award-winning architectural firm in our Winston-Salem office. We are looking for a highly productive, motivated team member with good organizational skills and an innate orientation to client service. You should be able to handle multiple tasks and work fluidly on multiple projects and project types.

Experience in senior living, hospitality or mixed-use/multi-family a plus but not required. We are looking for someone who wants to grow in experience and knowledge, potentially expanding into project management and client engagement.

- 5 years of experience working in an architecture firm
- Good knowledge of drafting standards and construction detailing
- BIM trained – ARCHICAD preferred

This is a full-time position with benefits in a casual and non-corporate working environment. CJMW Architecture is an award winning architectural and interior design practice specializing in senior living, hospitality and mixed-use/multi-family as well as other project types. Please email resume and examples of previous work to careers@cjmw.com.
